

FIG. 1 is a block diagram of a system 100. The system 100 includes a central processing device 10, a plurality of user terminals 4, a plurality of ad provider terminals 3, and a plurality of content provider terminals 5. The central processing device 10 is connected to the user terminals 4, the ad provider terminals 3, and the content provider terminals 5. The user terminals 4 are connected to the central processing device 10. The ad provider terminals 3 are connected to the central processing device 10. The content provider terminals 5 are connected to the central processing device 10.
